

Creative Writing Workshop I

Item: LEGO EV3

The color: snow, milk, AirPods, eraser, paper

Feel: technology, education, creative, intelligence Sound: robot

Paragraph: My relationship with EV3 started in 2012, the alien look, the Wall-e's face, the cables which look live nerve system, inspired my interest in engineering, and drag me into the world of robot. EV3 became my friend, we competed together in three competitions, and won one award. He opened the engineering door for me, and helped me succeed in the robotic club in high school, he is not only the engineering mentor for me, but also the teacher's assistance when i was teaching elementary school students robotic knowledge ,EV3 will always stand a part in my memory.

Wall-e's face
