

What people exemplify how this STS formation has developed over time?

Students have been central to our intellectual community. CSTS has a vibrant history of faculty-student collaboration; we conduct research side-by-side and are co-authors on scholarly publications. Our students present their research in professional forums and play a leading role in STGlobal. Many engage with STS beyond the university as well, in industry and community organizations.

Student Scholars Animating STS @ Drexel University

Kenner, Ali, and Eliza Nobles. 2018. "Student Scholars". In *Animating STS @ Drexel University*, created by Ali Kenner and Eliza Nobles. In *STS Across Borders Gallery Exhibit*, curated by Aalok Khandekar and Kim Fortun. Annual Meeting of the Society for Social Studies of Science. Sydney, Australia. Aug 30-31. <http://www.stsinfrastructures.org>.
