

# Historical Records *of* Australian Science

*Historical Records of Australian Science* (HRAS) is a bi-annual journal that publishes peer-reviewed articles on the history of science, pure and applied, in Australia, New Zealand and the southwest Pacific.

The journal publishes original scholarly research and historical documents, as well as reviews, biographical memoirs, book reviews, and an annual bibliography of the history of science in Australia, New Zealand and the southwest Pacific.

The journal began in 1966 as the irregular publication *Records of the Australian Academy of Science*, and the name was changed to *Historical Records of Australian Science* in 1980.

## SCOPE:

HRAS publishes two kinds of unsolicited manuscripts:

### Historical Articles

Original scholarly pieces of peer-reviewed research of no more than 8000 words in length (including endnotes). Appendices, documents and other materials can be included in Supplementary Material.

### Historical Documents

Either hitherto unpublished or obscurely published primary sources (word limit subject to negotiation), along with a peer-reviewed scholarly introduction of between 4000 and 6000 words (including endnotes). The introduction will appear within the journal and the document(s) will appear in Supplementary Material.

The journal also publishes a number of commissioned manuscripts such as reviews, memoirs, book reviews and an annual bibliography.

## JOURNAL FEATURES:

- Media engagement tracked with Altmetrics scores
- 'Green' and 'Gold' Open Access options
- No page charges and free colour
- Online manuscript submission and peer review
- Rapid and professional manuscript handling
- Indexed in a wide variety of databases
