

# Science, Technology and Society

## Research Working Papers

This working Paper series is intended to disseminate new work of members of the Programme and postgraduates attached to the Programme to a wider audience. The emphasis is on work in progress or recently completed. The papers will include:

- reports of research results;
- descriptions of research in progress;
- exploratory discussion papers;
- conference papers;
- responses to work elsewhere.

Information on the research projects and postgraduate opportunities in the Programme can be obtained from the Programme Coordinator:
