

Who were the actors involved in the 1994 meeting of 4S?

- 4S Organizers
 - Sal Restivo
 - 4S President at the time
 - Wesley Shrum
 - long time 4S Secretary
 - Linda Layne
 - 1994 Program Chair (according to Martin article “Anthropology and the Cultural Study of Science”)
 - May have been the first woman to serve as program chair
 - Idea: “STS interrupted” -- Think about how the addition of a female program chair 25 years ago “interrupted” the field. What did it do and make possible?
 - For instance, the 2 program co-chairs this year are both women.
 - Draft email to Linda Layne:

“Dear Dr. Layne,

As you may know, the 2019 4S conference will be held in New Orleans, LA. This coincidentally marks 25 years since the last New Orleans-based 4S conference. As a bit of fun and a bit of history, the 4S 2019 planning committee is planning a flashback to the New Orleans 4S conference that will be played out via social media. Aadita (who is cc'd) and I are two PhD students working together to make that happen.

Our information shows that you were the program chair that year and, based on a paper by Emily Martin, we think you may have also been the first woman to fulfill that role. We would love to hear your thoughts about and memories of the event and/or its planning. If you have any documents from then: a program, printed essays you wouldn't mind sharing (for us to mention, but not link to or publish on the web), or especially photos; would you mind sharing those with us?

Best,
Yesmar & Aadita”
